

CERAMIC IR HEATERS

ESS BEE Ceramic infrared heaters are manufactured with three basic emitter faces: Concave, Flat and Convex. The concave surface will emit a "concentrated" radiant pattern which is highly effective when zone heating is desired as well as radiant heating in general. Flat surface emitters will produce a "uniform" pattern for even heating at a close proximity between the emitter and the target being heated .

Ess Bee Heaters Pvt. Ltd.

Factory: Kh. No. 22/6/01, Gali No.9, Pipalwali Gali, Samaypur Extn. Indl. Area, Delhi - 110042
